# KENOGAMISIS GOLF CLUB NEWS

**May 2022**

Spring is in the air as the warm weather seems to finally be getting rid of the rest of the snow from this long past winter. Unfortunately, Mother Nature did have an impact on the condition of the golf course, particularly the greens. Course staff is on site addressing the course for eventual start up, but as of now the course is unplayable until further notice. A decision as to when the course will be open for play will be determined within the next week/week and a half. Your patience is greatly appreciated.

We are still in the process of finalizing staff for the Pro Shop. It has been a struggle to find applicants for our Pro Shop positions but should have some interviews set up shortly. Our hope is to have our staff set up for training so that we can open the Clubhouse starting May 21<sup>st</sup> for golfers to come in and pay their memberships. This date is tentative and subject to change. Again, the date for when the course will be open for play is still to be determined. Information regarding membership rates and related fees as well as applications can be found on our website [www.kenogamisisgolfclub.com](http://www.kenogamisisgolfclub.com). Members can start paying memberships and other fees by e-transfer to [clubhouse@kenogamisisgolfclub.com](mailto:clubhouse@kenogamisisgolfclub.com).

We currently do not have anyone to run the Kitchen for the upcoming golf season. In the past, we were required to provide food as a requirement for our Liquor Licence. This law has changed where we no longer have this requirement. However, the Board is exploring options for providing some kind of food to our patrons similar to the past two seasons. More details should be available by the time we open for the season.

It seems that we may have someone to run some semblance of a Men's Night for the upcoming golf season. What that will look like and when it will start are yet to be determined.

With the various challenges we have faced over the past several years, in addition to the challenges the Board has faced in getting the course staffed and up and running for this season, it is important that all our members and patrons work with the Board to help keep the course viable for the long term. While we are thankful to have continued financial support from the Municipality, it is actually the support from all our golfers that keeps the Kenogamisis Golf Club operational. With a potential expected influx of workers for the mine, the hope is for increased golf play for this season. Our hope is for all of you to have an enjoyable golf season as we come out of the past two seasons of Covid regulated play.

Please visit our website [www.kenogamisisgolfclub.com](http://www.kenogamisisgolfclub.com) or our Facebook page at Kenogamisis Golf Club for further news. We will continue to provide further updates as soon as possible as they become available.
